Re: Construction Testing
Proposed Franklin County Courthouse
Benton, Illinois
HFE File: H-19213

Dear Sir:

In response to your request, I am pleased to provide the following quotation to perform construction testing services for the above referenced project. We have provided a rough estimate below based on similar construction projects. We will invoice only for the hours and tests actually performed. Estimated testing fees are as follows:

1. Engineering Technician for Nuclear Density Compaction testing, Concrete and CMU wall grout and mortar testing, and Footing Inspections 70 days, 4 hours per day 280 hours @ \$66.00/hr.....	\$18480.00
2. Proctor Tests 2 @ \$ 200.00/ea.....	\$ 400.00
3. Concrete Compressive Strength Tests 240 cylinders @ \$ 16.00/ea.....	\$ 3840.00
4. Structural Steel/Weld Inspections 5 days @ \$800.00/day.....	\$ 4000.00
5. Trip Charges 70 miles roundtrip 80 trips @ \$0.55/mile.....	\$ 3080.00
Construction Testing Total Estimated Cost:	\$29,800.00

Page 2 of 2

The work will be billed on based on the actual amount of services performed multiplied by the above unit prices. It should be noted construction testing is dependent upon the contractor's scheduling, weather, and other factors beyond our control. We cannot guarantee the estimated fees, however, we will notify you should there be the potential of exceeding this estimate.

If you should have any questions, please feel free to contact us at your convenience.

Sincerely,

HOLCOMB FOUNDATION ENGINEERING CO.

Scott G. Holcomb, E.I.
