The meeting was called to order at 5:00 p.m. by Chairman Alan Price. Chairman Price asked if there were any questions on the bills that had previously been emailed to county board members. County Engineer Mike Rolla explained some of the claims. With no questions or comments on the claims, Rolla told the board that the county highway had started mowing. They will first make one pass around the county roads and when that is completed, they will then start again and mow county right of ways. Rolla then announced a notice from IDOT that the highway department would be receiving 1.38M over the next 3 years through MFT monies. The money can only be used for bonded projects. Randall Crocker asked Rolla about summer help. Rolla explained that school was just officially getting out and with the COVID19 restrictions, he was just waiting for the right time to discuss it with the board. Crocker stated that he thought it was a good program for the highway department to continue.

Chairman Price asked the call-in attendees if there were any other items to discuss. There were no comments or questions.
