HAZARD COMMUNICATION PROGRAM

1. Company Policy

To ensure that information about the dangers of all hazardous chemicals used by **Franklin County** is known by all affected workers, the following hazard communication program has been implemented. Under this program, workers will be informed of the requirements of the OSHA Hazard Communication Standard, the operations where exposure to hazardous chemicals may occur, and how workers can access this program, as well as labels and SDSs.

This program applies to any chemical which is known to be present in the workplace in such a manner that workers may be exposed under normal conditions of use or in a foreseeable emergency. All work areas that involve potential exposure to chemicals are part of the hazard communication program. Copies of the hazard communication program are available in the **County Engineer's office and Foreman's Office** for review by any interested worker.

The Franklin County Engineer is the program coordinator, with overall responsibility for the program, including reviewing and updating this plan as necessary.

2. Container Labeling

Don Miklos, County Highway Foreman will verify that all containers received for use will be clearly labeled in accord with the requirements of HazCom 2012, including a product identifier, pictogram, hazard statement, signal word, and precautionary statements, as well as the supplier's contact information including name & address.

The **County Highway Foreman** will ensure that all secondary containers are labeled with the original supplier's label or with an alternative workplace label. For help with labeling, see **County Highway Foreman**

The **County Highway Foreman** will review the company labeling procedures every **six months** and will update labels as required.

3. Safety Data Sheets (SDSs)

The **County Engineer** is responsible for establishing and monitoring the company SDS program. The procedure below will be followed when an SDS is not received at the time of initial shipment:

A search will be done on the company's website to locate the SDS, then will be printed out and added to the SDS binder.

Copies of SDSs for all hazardous chemicals to which workers are exposed or are potentially exposed will be kept in **the County Engineer's office and the Foreman's office**. Workers can access SDSs by **reviewing the SDS binder**.

SDSs will be readily available to all workers in each work area during each work shift. If an SDS is not available, contact **the County Highway Foreman**.

When revised SDSs are received, the following procedures will be followed to replace old SDSs:

The new SDS's will replace the old SDS's in the binder once the material that had the old SDS is no longer used.

HAZARD COMMUNICATION PROGRAM

The **County Engineer** is responsible for reviewing the SDSs received for safety and health implications, and initiating any needed changes in workplace practices.

4. Employee Information and Training

The County Engineer is responsible for employee information and training.

Every worker who will be potentially exposed to hazardous chemicals will receive initial training on the Hazard Communication standard and this program before starting work.

The training program for new workers is as follows:

Workers will review this Hazardous Communication Program, and all applicable SDS's.

Prior to introducing a new chemical hazard into any work area, each worker in that work area will be given information and training as outlined above for the new chemical hazard. The training format will be as follows:

Training will be done either online or by in-person trainer if applicable.

5. Hazards of Non-routine Tasks N/A

6. Informing Other Employers/Contractors

It is the responsibility of **the County Engineer** to provide other employers and contractors with information about hazardous chemicals that their workers may be exposed to on this work site, and suggested precautions for workers. It is the responsibility **the County Engineer** to obtain information about hazardous chemicals used by other employers to which our workers may be exposed.

Other employers and contractors will be provided with SDSs for hazardous chemicals generated by this company's operations in the following manner:

They may obtain copies of applicable SDS's from the County Highway Foreman.

In addition to providing a copy of an SDS to other employers, other employers will be informed of necessary precautionary measures to protect workers exposed to operations performed by this company.

Also, other employers will be informed of the hazard labels used by the company. If alternative workplace labeling systems are used, the other employers will be provided with information to understand the labels used for hazardous chemicals to which their workers may have exposure.

7. List of Hazardous Chemicals

A list of all known hazardous chemicals in the workplace is attached to this program. This list includes the name of each chemical, and the work area(s) in which each of the chemicals is used. Further information on each chemical may be obtained from the SDSs, located in **the County Engineer's office or the County Highway Foreman's office.**

HAZARD COMMUNICATION PROGRAM

When new chemicals are received, this list is updated within (7) days of introduction into the workplace. To ensure that any new chemical is added in a timely manner, the following procedures shall be followed:

The SDS will be added to the binders, and the Hazardous Communication Program will be updated.

The hazardous chemical inventory is compiled and maintained by **the County Highway Foreman, 618-438-7731.**

8. Chemicals in Unlabeled Pipes-N/A

9. Program Availability

A copy of this program will be made available, upon request, to workers, their designated representatives, and OSHA

Format of SDS's

Section 1, Identification includes product identifier; manufacturer or distributor name, address, phone number; emergency phone number; recommended use; restrictions on use.

Section 2, Hazard(s) identification includes all hazards regarding the chemical; required label elements.

Section 3, Composition/information on ingredients includes information on chemical ingredients; trade secret claims.

Section 4, First-aid measures includes important symptoms/ effects, acute, delayed; required treatment.

Section 5, Fire-fighting measures lists suitable extinguishing techniques, equipment; chemical hazards from fire.

Section 6, Accidental release measures lists emergency procedures; protective equipment; proper methods of containment and cleanup.

Section 7, Handling and storage lists precautions for safe handling and storage, including incompatibilities.

Section 8, Exposure controls/personal protection lists OSHA's Permissible Exposure Limits (PELs); Threshold Limit Values (TLVs); appropriate engineering controls; personal protective equipment (PPE).

Section 9, Physical and chemical properties lists the chemical's characteristics.

Section 10, Stability and reactivity lists chemical stability and possibility of hazardous reactions.

HAZARD COMMUNICATION PROGRAM

Section 11, Toxicological information includes routes of exposure; related symptoms, acute and chronic effects; numerical measures of toxicity.

Section 12, Ecological information*

Section 13, Disposal considerations*

Section 14, Transport information*

Section 15, Regulatory information*

Section 16, Other information, includes the date of preparation or last revision.

***Note: Since other Agencies regulate this information, OSHA will not be enforcing Sections 12 through 15(29 CFR 1910.1200(g)(2).**

Franklin County Highway Department PPE Hazard Assessment		
Certified by <u>Matt Barrett</u> (1910.132(d)(2)) on DATE <u>11/30/23</u> Signature <u>[Signature]</u>		
Incident/Task Type	Possible Hazards	Required PPE
Alarm sounding, smell of smoke, LPG, natural gas, etc.	Heat, fall, struck-by, respiratory	Awareness level members do not enter zone, move to safe location
Hazardous Materials	Toxic, corrosive	Awareness level members do not enter the hot or warm zone. Operations and technician level members wear PPE selected by technician level (or higher) qualified members based on an assessment of the hazardous material.
Medical (normal exposure)	Bloodborne pathogens	Uniform, eye protection and nitrile gloves
Medical (high exposure such as deliveries or severe trauma)	Bloodborne pathogens	Uniform, face shield, nitrile gloves, and disposable gown.
Other emergencies	Unknown	Members will wear PPE at the direction of the officer in charge. Officers in charge will always seek a higher level of protection than may be necessary and then downgrade as circumstances dictate.
Equipment, vehicle maintenance	Struck-by, crush	Eye protection, work gloves, coveralls
Equipment, tree trimming	Fall, Struck-by	Eye protection, work gloves, coveralls, fall protection, hard hat

Citation and Notification of Penalty

February 15, 2024

Dear Mr. Miller,

This letter includes citations for violations found during a workplace inspection by IL OSHA. Please review and act within the noted deadlines. Do not hesitate to contact your assigned inspector if you have any questions.

Sincerely,

Erik Kambarian

Chief, IL OSHA Division

Your Citation Summary

Franklin County - Highway Dept.
13034 Oddfellow Lane, Attn: Larry Miller - Board
Chairman
Benton, IL 62812

Inspection # 1711355

You must correct each violation by the date(s) listed in the Citation and Notification of Penalty. Each violation may have a different correction deadline. Please contact your inspector as soon as possible if you believe you will not meet a correction deadline.

Total Amount Due: \$0.00

Payment in full is due 15 working days after receipt of this letter. Failing to correct violations may result in per day, per violation financial penalties.

Choose an option and act within 15 working days.

Post a copy of the citation at or near the place where each violation occurred or in a prominent place where it will be readily observable by all affected employees, even if you plan to contest.

Option #1 – Correct Violations

I will ensure the cited violations are corrected by the deadlines, and do not contest. See next page for details.

Option #2 – Informal Conference

I would like to discuss the citation with IL OSHA. This may lead to changes in the penalty amount, due date or correction deadlines (if appropriate). See next page for details.

Option #3 – Formal Contest

I would like to contest the citation, penalties, and/or correction deadlines through a formal legal process. See next page for details.

Questions or Concerns?

Contact your assigned inspector

Call: (217) 782-9386

E-mail:

DOL.Safety@illinois.gov

Option #1 – Correct Violations

1. Correct violations, then complete and e-mail or mail your assigned inspector the attached “ABATEMENT CERTIFICATION” along with the appropriate evidence of repair or corrective action (e.g. photos, purchase orders, documentation, records, etc.). **Mail must be postmarked within 10 calendar days after each violation's correction deadline and include any required evidence.**

2. Penalties (if applicable): Within 15 working days after receipt of this letter, pay the **Total Amount Due** by check or money order payable to “Illinois Department of Labor” and use the Springfield Office address. **Include Inspection # 1711355 on the payment.** IDOL will not recognize any restrictions, conditions, or endorsements included with the payment. You may also pay online at <https://labor.illinois.gov/epay.html>

Option #2 – Discuss with IL OSHA at an Informal Conference

1. Call (217) 782-9386 or e-mail DOL.Safety@illinois.gov as soon as possible to schedule a meeting with IL OSHA. The meeting must occur **within 15 working days** of receiving this citation. Be prepared to provide supporting documentation of existing conditions and corrections done thus far. If necessary, you can still contest the citation after this meeting. ****This meeting does NOT extend your 15 working day deadline to contest the citation****

2. Fill in and post the attached “Notice to Employees of Informal Conference” after the meeting is scheduled.

Option #3 – Formally Contest the Citation

E-mail (DOL.Safety@illinois.gov) or mail (Springfield Office) a letter of intent to legally contest, postmarked within **15 working days** after the receipt of this letter. Address this letter to the IL OSHA Division Chief. After 15 working days the citation is final and cannot be appealed.

Authority – Illinois Occupational Safety and Health Act [820 ILCS 219/1-925] and Administrative Rules [56 Ill. Admin. Code Part 350].

Employer Discrimination Unlawful – The Act prohibits discrimination by an employer against an employee for exercising any rights provided by the Act. An employee who believes that he/she has been discriminated against may file a complaint within 30 calendar days after the discrimination occurred with IL OSHA.

Notice to Employees – The Act gives an employee or his/her representative the opportunity to object to any abatement date set for a violation if he/she believes the date to be unreasonable. The contest must be mailed to IL OSHA and postmarked within 15 working days of the receipt by the employer of this Citation.

Inspection Data – Under the Electronic Freedom of Information Act, information related to your inspection will be published at www.OSHA.gov. If you have any dispute with the accuracy of the information displayed, please contact this office.

E-mail: DOL.Safety@illinois.gov

NOTICE TO EMPLOYEES OF INFORMAL CONFERENCE

An informal conference has been scheduled with IL OSHA to discuss the Citation(s) issued on 02/15/2024. The conference will be held:

Date: _____

Time: _____

Location: _____

Representatives of employees have a right to attend an informal conference.

ABATEMENT CERTIFICATION

**Illinois Department of Labor
Illinois OSHA**

Inspection # 1711355

Mr. Larry Miller – Board Chairman
Franklin County - Highway Dept.
13034 Oddfellow Lane
Benton, IL 62812

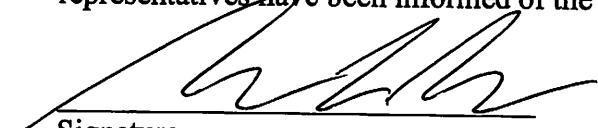

Instructions:

1. Please complete this abatement certification form and e-mail or mail it to your assigned inspector before the abatement date indicated on each citation.
2. Enter the date you corrected the hazard and describe the corrective actions taken to remove the hazard.
3. Enclose additional supporting documentation (receipts, photos, proof of training, written programs etc.).

Citation/Item Number	Abatement Due Date	Standard Cited	Hazard Corrected Date	Describe Corrective Action Taken to Remove the hazard
Citation 1 Item 1	March 22, 2024	Serious	Barriers installed. Pictures sent 11/22/23	Barriers installed at fuel pumps.
Citation 1 Item 2	March 22, 2024	Serious	11/22/23 - Pictures sent 11/30/23 - Pictures of Invoice	Guard re-installed on mower. - Invoiced for 2-PTO covers that have not yet come in.
Citation 1 Item 3 a	March 22, 2024	Serious	11/22/23 - Picture sent 11/22/23 - Picture sent	Guard adjusted Guard adjusted
Citation 1 Item 3 b	March 22, 2024	Serious	11/22/23 - Picture sent	Guard adjusted
Citation 1 Item 4 a	March 22, 2024	Serious	11/22/23 - Picture sent	Electrical Box labeled.

Citation 1 Item 4 b	March 22, 2024	Serious	11/22/23 Pictures sent 2/21/24	Areas around electrical boxes has been cleared
Citation 1 Item 5 a	March 22, 2024	Serious	12/8/23 Adopted Hazardous Communications Program	Adopted and sent copy of hazardous communication program
Citation 1 Item 5 b	March 22, 2024	Serious	2/22/24	Provided training on hazardous communication program, including use of SDS.

I attest that the information contained in this document is accurate and that the affected employees and their representatives have been informed of the abatement activities described in this certification.

Citation and Notification of Penalty

Company Name: Franklin County - Highway Dept.
Inspection Site: 13034 Oddfellow Lane Benton, IL 62812

Citation 1 Item 1 Type of Violation: Serious

29 CFR 1910.106(g)(3)(iv)(d): The dispensing units, except those attached to containers, shall be mounted either on a concrete island or protected against collision damage by suitable means.

On 11/17/2023, one 500-gallon tank, and two 250-gallon fuel tanks were observed in the center of the maintenance yard. The fuel tanks were protected from collisions by a guard rail on only three sides. The area where fuel is dispensed was left unprotected.

Documentation in the form of an electronic or hard copy of fuel tanks being fully protected against collision damage is one feasible means of abatement. A signed Abatement Certification is required.

Date by Which Violation Must Be Abated:

March 22, 2024

Proposed Penalty:

\$0.00

Citation 1 Item 2 Type of Violation: Serious

29 CFR 1910.212(a)(1): Types of guarding. One or more methods of machine guarding shall be provided to protect the operator and other employees in the machine area from hazards such as those created by point of operation, ingoing nip points, rotating parts, flying chips and sparks. Examples of guarding methods are-barrier guards, two-hand tripping devices,electronic safety devices, etc.

1. On 11/17/2023, the employer did not protect employees from lacerations and serious eye injuries by allowing employees to mow without shoot guards on Hustler mower.
2. On 11/17/2023, the employer did not protect employees from fast rotating parts by allowing employees to operate Bushhog without proper guarding.

Documentation in the form of an electronic or hard copy of invoice or picture of mower guard, and guards around rotating parts of the bushhog is one feasible means of abatement. A signed Abatement Certification is required.

Date by Which Violation Must Be Abated:

March 22, 2024

Proposed Penalty:

\$0.00

Citation and Notification of Penalty

Company Name: Franklin County - Highway Dept.
Inspection Site: 13034 Oddfellow Lane Benton, IL 62812

Citation 1 Item 3 a Type of Violation: Serious

29 CFR 1910.215(a)(4): Work rests. On offhand grinding machines, work rests shall be used to support the work. They shall be of rigid construction and designed to be adjustable to compensate for wheel wear. Work rests shall be kept adjusted closely to the wheel with a maximum opening of one-eighth inch to prevent the work from being jammed between the wheel and the rest, which may cause wheel breakage. The work rest shall be securely clamped after each adjustment. The adjustment shall not be made with the wheel in motion.

On 11/17/2023, the work rest on the DeWalt bench grinder in the "new" shop was observed to be greater than one-eighth inch from the grinding wheel.

Documentation in the form of an electronic or hard copy of invoice or picture of work rest one-eighth from grinding wheel is one feasible means of abatement. A signed Abatement Certification is required.

Date by Which Violation Must Be Abated:

March 22, 2024

Proposed Penalty:

\$0.00

Citation 1 Item 3 b Type of Violation: Serious

29 CFR 1910.215(b)(9): Exposure adjustment. Safety guards of the types described in Subparagraphs (3) and (4) of this paragraph, where the operator stands in front of the opening, shall be constructed so that the peripheral protecting member can be adjusted to the constantly decreasing diameter of the wheel. The maximum angular exposure above the horizontal plane of the wheel spindle as specified in paragraphs (b)(3) and (4) of this section shall never be exceeded, and the distance between the wheel periphery and the adjustable tongue or the end of the peripheral member at the top shall never exceed one-fourth inch. (See Figures O-18, O-19, O-20, O-21, O-22, and O-23.)

On or about 11/17/2023, guards on the DeWalt bench grinder in the "new" shop were observed to be greater than one-fourth inch from the grinding wheel and/or iron brush.

Documentation in the form of a photo, invoice, or other means of safety guards one-fourth inch or less from grinding wheel is one feasible means of abatement. A signed Abatement Certification is required.

Date by Which Violation Must Be Abated:

March 22, 2024

Proposed Penalty:

\$0.00

Citation 1 Item 4 a Type of Violation: **Serious**

29 CFR 1910.303(f)(2): Services, feeders, and branch circuits. Each service, feeder, and branch circuit, at its disconnecting means or overcurrent device, shall be legibly marked to indicate its purpose, unless located and arranged so the purpose is evident.

On 11/17/2023, it was determined that the employer did not have an electrical panel legibly marked in the "old shop", where employees park their work trucks during snow removal, to indicate purpose.

Documentation in the form of an electronic or hard copy of invoice or picture of electrical panel legibly marked to indicate its purpose is one feasible means of abatement. A signed Abatement Certification is required.

Date by Which Violation Must Be Abated: **March 22, 2024**
Proposed Penalty: **\$0.00**

Citation 1 Item 4 b Type of Violation: **Serious**

29 CFR 1910.303(g)(1): Space about electric equipment. Sufficient access and working space shall be provided and maintained about all electric equipment to permit ready and safe operation and maintenance of such equipment.

On 11/17/2023, the space around the electrical equipment (panel) in the "old shop", where employees park their work trucks during snow removal, and "new" shop was blocked. The space around the equipment was not maintained to permit ready and safe operation and maintenance of such equipment.

Documentation in the form of an electronic or hard copy of invoice or picture of sufficient access and working space to electric panels is one feasible means of abatement. A signed Abatement Certification is required.

Inspection Site: 13034 Oddfellow Lane Benton, IL 62812

Citation 1 Item 5 a Type of Violation: **Serious**

29 CFR 1910.1200(e)(1):Employers shall develop, implement, and maintain at each workplace, a written hazard communication program which at least describes how the criteria specified in paragraphs (f), (g), and (h) of this section for labels and other forms of warning, safety data sheets, and employee information and training will be met, and which also includes the following:

*A list of the hazardous chemicals known to be present using an identity that is referenced on the appropriate material safety data sheet (the list may be compiled for the workplace as a whole or for individual work areas); and

*The methods the employer will use to inform employees of the hazards of non-routine tasks (for example, the cleaning of reactor vessels), and the hazards associated with chemicals contained in unlabeled pipes in their work areas.

On 11/17/2023, the county highway department was unable to produce a complete hazard communication program. The department utilizes large quantities of chemicals and/or petroleum products to support facility operations. Chemicals, and/or petroleum products used in support of facility operations includes, but is not necessarily limited to, gasoline, diesel fuel, hydraulic fluids, and weed killer.

Abatement documentation in the form of an electronic or hard copy of a written program that meets the requirements of the standard with documentation of employee training on the written program to include the date of training, name of trainer, and if applicable, copies of training materials used is required, in addition to a signed Abatement Certification.

Date by Which Violation Must Be Abated:

March 22, 2024

Proposed Penalty:

\$0.00

Citation 1 Item 5 b Type of Violation: **Serious**

29 CFR 1910.1200(h)(1): Employers shall provide employees with effective information and training on hazardous chemicals in their work area at the time of their initial assignment, and whenever a new chemical hazard the employees have not previously been trained about is introduced into their work area. Information and training may be designed to cover categories of hazards (e.g., flammability, carcinogenicity) or specific chemicals. Chemical-specific information must always be available through labels and safety data sheets.
