THE COST OF WAITING

Monthly Savings **\$54.20**

10-Year Savings **\$6,504.00**

The Ameren Illinois Energy Efficiency Program helps offset the cost of implementing an energy savings project by providing incentives to help you start saving now! When weighing the project cost, incentive amount and project payback against the cost of waiting – the choice to act now seems obvious!

Potential payback numbers and return on investment are calculated based on project site data and average energy data of small businesses in the Ameren Illinois service territory. The actual savings and payback rate you experience may vary.

For any questions about this document or the Ameren Illinois Energy Efficiency Program process, please call your local Energy Advisor, Terry Tebbe e:ttebbe@ameren.com p:(618) 972-0695
