Dear Gayla,

Thank you for reaching back out to me for this information that we submitted (two copies of each) to Board Chairman Miller on Monday evening. I am happy to provide you with your own copies.

Please find the attached documents below:

- 1.) The Resolution for a Legally Valid 2024 General Election (5-page document)
- 2.) Illinois' 2022 General Election Validity Scorecard (1-page document)

I am proud to be a volunteer with the Illinois Chapter of United Sovereign Americans. Although we are not official spokespersons, Kurt Pilz, Brian Jones, Joe Bridge & I would like to thank you & your entire County Board for listening to our presentation earlier this week!

We appreciated the questions that were asked of us, which we tried to answer to the best of our abilities. Please note that on the bottom right-hand corner of the Scorecard document, our director's name and contact information can be found. As we already indicated to the Board Members, our Illinois Chapter directors, Ken & Jodie Zitko, would be pleased to be invited back & placed on your agenda if that would aid in the Board's ability to consider passing this Election Validity Resolution. They could provide a more thorough presentation of our findings & answer questions in more detail.

I am also taking this opportunity to add 3 more attachments to this email. They further explain our non-partisan, grass roots' organization's goals & provide a multi-state compilation of Scorecard data from 20 states across America.

We believe in **Real Voters, Real Votes, Real Counts & Real Verification.**

I trust that most Americans who love our precious country concur with those 4 concepts, as well.

Again, Thank You! 🇺🇸
Have a wonderful weekend!

Sincerely,

Babe Paukstys

★ Resolution ★

for a Legally Valid 2024 General Election

Whereas It is a recognized civil right in the United States for every citizen to have free and fair elections. “And the right of suffrage can be denied by a debasement or dilution of the weight of a citizen’s vote just as effectively as by wholly prohibiting the free exercise of the franchise.” (Reynolds v. Sims, 377 U.S. 533 (1964))

Whereas It is the duty of our election officials to guarantee our elections are accurate and free from distortion or manipulation. “Congress seeks...to guard the election of members of Congress against any possible unfairness by compelling... everyone concerned in holding the election to a strict and scrupulous observance of every duty devolved upon him while so engaged... The evil intent consists in disobedience to the law.” (In Re Coy, 127 U.S. 731 (1888))

Whereas Our constitutional system of representative government only works when the following four tenets of an election are upheld:

1. The Voter Rolls Must Be Accurate (National Voter Registration Act, 1993).
2. Votes Counted Must Be From Eligible Voters (US Constitution, Fourteenth Amendment, Section Two).
3. The Number of Votes Counted Must Equal the Number of Voters Who Voted.
4. There Can Be No More Than One in 125,000 Ballots in Error by the Voting System (Help America Vote Act, 2002).

Whereas An open-source audit of the Illinois 2022 General Election conducted by Illinois state citizens has uncovered evidence of massive inaccuracies that violate both Federal and State laws, including:

- ◆ **4,032,801** ineligible or uncertain registration violations found within the Illinois State voter roll database.
- ◆ **589,985** votes cast by ineligible or uncertain registrations.
- ◆ **27,491** more votes counted than voters who voted in the 2022 general election. No one knows who cast them.
- ◆ **589,952** apparent voting violations in excess of the legal standard of system accuracy for a valid federal election. Maximum allowable system errors for the 2022 general election in Illinois was **33**.
- ◆ Certification as defined by law, an attestation of accuracy and compliance, appears to have been fraudulent and illegal.

Whereas These findings trample legal accuracy requirements of the voting system during a Federal Election. Accuracy is defined as the ability of the system to capture and report the specific selections, and absence of selections, made by a voter without error.

Whereas The intent of the voters must be known factually before certification can be lawfully conducted. Certification of an election that varies from the law is an abridgement of the civil rights of the citizens, a fraud *ab initio*. (United States v. Throckmorton, 98 U.S. 61 (1878)). "From time immemorial, an election to public office has been, in point of substance, no more and no less than the expression by qualified electors of their choice of candidates." (United States v. Classic, 313 U.S. 299 (1941))

Whereas Illinois's 2022 General Election appears to have been invalid, depriving us of the guaranteed protection of our Natural Rights under a government duly and provably chosen by us, the American people, resulting in incalculable damage to our families, our way of life, and the fabric of these United States.

Therefore We call upon our Representatives to provide relief to the people, and the assurance of domestic tranquility, by joining us in demanding a VALID 2024 General Election that upholds these existing laws, and equitable principles of law:

1. Proof of citizenship, identity and eligibility to register and vote, not anonymous attestation.
2. Voter rolls certified accurate and available for public review and challenge 30 days before the start of early voting. Voters added after that date must bring proof of citizenship, identity, and address in person to a qualified official at each polling place.
3. Hand-marked, secure ballots similar to currency. Where imaging technology is used for tabulation, the security features must be verifiable in the ballot image.
4. Systems, machines, security measures, infrastructure and conduct are required to be compliant with federal law for fraud prevention regarding risk assessment, certification, testing, and implementation.
5. Adjudication must be signed-off by party, candidate, and trained citizen witnesses after being given full and effective observation rights. Candidates and trained citizens must be allowed immediate access to ballots, ballot images and CVRs.
6. Ballots, regardless of entry source, election operations, and systems must maintain end-to-end chain of custody from voter to vote count to final canvass, including auditability and witnessed transfer with paper records.
7. A NIST-compliant, randomized, statistically valid end-to-end audit, with a 95% confidence level, of all elections pursuant to the 14th Amendment, Section 2 must be performed. These audits are to be conducted by qualified, insured and bonded security, forensics or financial auditors, not personnel from within the election system. Reconciliation will include the vote count, real physical ballots, adjudication, CVRs, ballot count, qualified voter count, custody transfer, and all other paper and electronic election systems, including logs.
8. If the total of all unique variances above is more than 10% of the margin of victory, a new election must be held in the state for those candidates affected, unless the issues can be provably corrected by a manual hand recount and a full review of records.
9. Waiver of requirements is not allowed. Only end-to-end system compliance, from registration through certification, can guarantee the intent of the people is accurately recorded.
