Subject: Electrical Work @ OEMC Operations Facility

To:

County Board Members -

Attached is a quote for some electrical work that needs to be completed at our storage facility next to the Coroner's Office. This work is needed to ensure we do not have electrical cables on the floor inside and running under the garage doors to equipment outside. Having cords on the ground and cords running under doors is a violation of the Illinois Department of Labor (who enforces OSHA) standards and local fire code. The work to be completed was the lowest cost of those surveyed and the vendor has worked with the Sheriff's Office on prior projects. The work will solve the electrical issues and will add LED safety lighting to the perimeter of the building that is currently unlighted (near the sinkhole area).

Please advise if we can move forward with this quote.

Thank you for your consideration.

RB

RE: FCEMA Operation Building

To whom it may concern

I would like to offer the price of adding 6 electrical drops, 3 outlets for the garage door openers and 3 receptacles for convenience by each garage door and 3 exterior wall packs. The wall packs are free through an Ameren Rebate.

My price for the project

**\$4,100.00**

Please let me know if you have any questions. Thank you for the opportunity to work with you on this project

Sincerely,

Kyle McCollum
